BLKN 596 Blockchain Career Development

MICROCREDENTIAL AWARDED TO

Tine Antonio ETCHE

This course is designed to help students take their technical skills to the next level in the blockchain industry. Students will gain an understanding of how to highlight their technical skills on their resume, as well as the various technical skills associated with different industries. Students will be given the opportunity to learn advanced tips for technical skills in a CV, and given the chance to create a resume simulation in order to better understand the process. Furthermore, this course will give students the resources necessary to gain a competitive edge when it comes to finding a job in the blockchain industry.

In partial fulfillment of the requirements for the nanodegree of

Blockchain Studies (CSC - BSTUD)
